HEALING OF MAGIC

THE USE OF MAGIC TRICKS IN THERAPEUTIC SETTINGS

"I highly recommend Kevin Spencer. He is passionate about his work and is an amazing educator. He is organized in his work and communicates clearly. His specialized work in rehabilitation is very exciting and has given many of our traditionally trained therapists an opportunity to be more creative and think outside the box. My department has made a commitment to continue our relationship with him and we plan on incorporating his magical, creative treatment options into our setting."

- Rebecca Phillips, OTR, CHT, CLCP Administrative Director of Rehabilitation, Martin Memorial Hospital System, FL

WHAT IS HEALING OF MAGIC?

HEALING OF MAGIC is a carefully designed, systematic approach to the therapeutic use of simple magic tricks in physical and psychosocial rehabilitation. There are numerous proven benefits for this form of therapy; however, the most important aspect is the ability of the client to transfer the skills learned by performing magic tricks into activities of daily living.

COURSE OBJECTIVES

Participants will:

1. Learn to perform several magic tricks and demonstrate an understanding of their therapeutic benefits in client treatment.
2. Distinguish which clients are appropriate for this type of treatment modality.
3. Evaluate and identify which magic trick(s) can be most beneficial to achieve a specific client goal.

WHO SHOULD ATTEND?

This workshop is an Introductory Level course that is designed for Occupational Therapists and Occupational Therapy Assistants. In addition, it is appropriate for other therapy professionals including Physical, Speech, and Recreation.

CAN I GET CEU's FOR THIS WORKSHOP?

Three (3) contact hours are available for this workshop. Satisfactory completion requires attendance, participation in all activities, demonstration of learned activity and knowledge of therapeutic value, and a completed evaluation and summary form.

HEALING OF MAGIC is committed to a policy of equal opportunity in education to ensure that all persons with a disability who are interested in attending any of our courses have complete and equitable access. Upon request, accommodation will be provided to allow individuals with disabilities to participate in all HEALING OF MAGIC services, programs and activities.

APPLICATION POSSIBILITIES

GROSS MOTOR SKILLS

Upper and lower extremities; trunk stabilization; strengthening; range of motion; gross motor control.

FINE MOTOR SKILLS

Object manipulation; dexterity; eye/motor coordination; pinch; flexion/extension; grasp/release; adduction/abduction.

COGNITION/PROBLEM SOLVING

Frustration tolerance; motor planning; organizing; sequencing; cause/effect; conceptualization; processing skills.

ATTENTION

Concentration; task follow-through; memory.
